

Social Media & Marketing Consulting for Small Businesses

Our mission is to help fellow small businesses grow through the use of social media and network building in a constantly evolving fashion. We aim to provide an energetic and educated approach to the rapidly growing and expanding social media world.

Lindsay Fernandez and Emily Brown co-founded Above Social with one simple concept in mind, we wanted to help small business owners succeed in their desires to build something important.

◆ Services Include

- Facebook Management
- Instagram Management

We truly believe that the action of helping local businesses succeed causes a direct effect on how different sized communities can better our world! We've seen first hand start-up businesses transform into community bonding, revenue generating, success stories. Above Social is dedicated to helping small businesses grow and evolve through the power of social media. Our company will help educate our clients in understanding the power and reach that social media marketing can create for their business, and in return earning growth, profit and community empowerment.
